The presentation will look at how Cloud Computing will help IT and the business to be more agile and how it is best being used.

Mohamed Roushdy, Siraj Finance PJSC, Chief Information Officer

15:10 Virtual Market Real Opportunity

By the end of 2013, 80 percent of active Internet users (and Fortune 500 enterprises) will have a “second life”, but not necessarily in Second Life, according to Gartner, Inc. By as little as \$50K organization can open a 3D web place and use the magic of virtual world to interact with the world. But challenges are always there, like any new business opportunity, you need to focus on clear business objectives not the ‘cool’ one. And always remember that behind every ‘avatar’ a real person that can be your customer.

Ashraf Shokry, Ajman Bank, Chief Operating Officer

15:50 Afternoon Coffee Break, Exhibition and Networking

16:20 Managing Technology Driven Operations in a High Volume Retail Banking Environment

- Retail Banking in the Middle East – IT & Operational Challenges

Biographies – Speakers & Guest Panelists

Farshad Nowshadi (M.Phil), Saman Bank Corporation

Vice President – Technology and Strategy

Farshad has over three decades of experience in technology with a proven track record of successfully bringing technological solutions to large organizations. For 20 years he was one of the key consultants to Reuters Financial global services. Enabling the company to implement a series of Innovative Financial/ Technical solutions for Banks and Dealing rooms worldwide. He has also been a consultant to a number of global companies such as Microsoft-HQ at Seattle (US) working on enabling a number of Microsoft financial services for the global financial sector. Farshad has also been the author of a number of International Books and Management Technical courses, for Learning Tree International (One of the world's largest Management training companies). Now the VP-Technology at Saman Bank, he is helping the Bank to continue to be the leading technological innovating Bank in Iran. Farshad Nowshadi is part of Microsoft Gold partner program and holds a degree of Master of Philosophy (M.Phil.) from Sussex University (UK) in Computing, Communications and Security.

UVK Kumar, Doha Bank, Head of Information Technology

Mr. U. V. K. Kumar has over two decades of experience in banking technology and is currently heading the Information Technology division of Doha Bank for over 9 years. Mr. Kumar has been instrumental in transforming Doha Bank to a technology savvy organization, improving both customer convenience and internal efficiency. During the period he has been spearheading the technology function, Doha Bank has become a trendsetter and pioneer in introducing multiple Customer Centric solutions using state-of-the-art technology, having the distinction of being the first to introduce multiple e-channel and e-commerce solutions in Qatar. Doha Bank's internal processes have been enhanced both for efficiency and controls, with the implementation of various systems to automate workflows, credit rating and Human Resource Management. He has ensured that Bank's IT infrastructure is kept enhanced with the latest technologies to maintain the quality of services and systems availability for customer convenience. It was under the guidance of Mr Kumar that Bank's IT Department achieved the distinction of being ISO 20000 certified, again a first in Qatar. ISO 27001 Certification for the Bank also goes to his credit for initiating and managing implementation of Information Security Management Standards (ISMS). Doha Bank also received Green IT Implementation of the year award from ITP-ACN 2010. Mr Kumar is a regular speaker in various knowledge sharing forums in Gulf region, having spoken on various technology and banking related subjects. He was selected by ACN as one of the Top 10 IT Managers of the Year for 2003 and again for 2008 and also CIO-20 awards from CNME for 2008 and 2010.

Fiaz Mansha, Gatehouse Bank Plc

Executive Vice President and Head of Information Technology

Fiaz Mansha is an Executive Vice President and the Head of IT at Gatehouse Bank. With over 18 years of experience in the IT industry, his current role champions the strategic importance and value of IT to the board and senior management. Fiaz has previously worked at the award winning stock broking firm, where he was the Chief Information Officer. Among many other achievements he managed and developed one of the most successful online trading platforms in the UK. His extensive career in the industry has also seen him work as a Principal Technical Consultant, heading various technical and development teams at TCA Synergo, a specialist trading software house. In this organisation he participated in the development and implementation of trading systems with some of the leading stockbrokers, such as Barclays Stockbrokers, Edward Jones, Halifax Share dealing and Fidelity. Fiaz has recently completed an Executive MBA from Cass Business School, specialising in Islamic Finance at the Dubai International Financial Centre. He also holds an MSc in Business Systems from City University, London and BEng in Electronic Systems.

hazi Qarout, Al Hilal Bank

Senior Vice President and Head of Information Technology

'Quality only happens when you care enough to do your best'

A leader in the field of Information Technology, with a strong focus on IT transformation, change management, innovation, IT Solutions and cost management, Ghazi Qarout has led a dynamic exponential growth curve of the IT infrastructure in the region and is presently the SVP of Al Hilal Bank in the UAE. Ghazi is a reputable spokesperson in regional and international

conferences discussing technically sophisticated IT topics. Starting his career in Jordan in 1983; Ghazi earned over 24 years of IT & Banking experience with one of the most prominent financial institutions in the region- the Arab Bank with over 5000 employees and capital of USD 754 ml; Ghazi held many key positions and handled multi-region projects covering Middle East and North Africa. Upon leaving, he held the position of SVP-Information Technology. Ghazi also served as a member of a National Steering Committee for the Central Bank of Jordan Project. As an avid supporter of the ICT industry in Jordan Ghazi was heavily involved with the Jordan Computer Society and headed the institution from February 2008 till May 2010. Not stopping there, Ghazi also sat on the Board of Trustees of the highly reputable Princess Sumaya University for Technology from April 2008 till November 2009. In 2008, Ghazi was approached by Al Hilal Bank to consult strategically on multiple facets of IT and Management to help launch the bank. Shortly after, Ghazi joined the bank as the Head of The Executive Management Office streamlining planning methodologies and project management standards. Ghazi is presently the SVP Head of Information Technology for the bank furnishing executive leadership input. Responsible of all aspects of IT transformation and strategic IT planning, Ghazi managed to stabilize the IT applications and streamline the IT unit with the business objectives and needs. Ghazi managed to develop a comprehensive enterprise technology strategy that allows the required scalability and flexibility to achieve the bank strategic goals. I launched the initiative of Al Hilal bank Information Agenda and enable the bank to the second entity in the world to adopt this state-of-the art technology.
